KNOBS

RENEW THE BALANCE AND HARMONY OF SHAPES

The best communication often achieved without uttering a word. Here are such statements of grace, conveyed beautifully, making your bathroom a heaven for spending cherished moments. We have installed latest machineries for manufacturing and most advanced processing plant which is managed by experts and experienced technocrats, supervisors and skilled work force. Sumangal group has maintained its tradition of leadership by continuously coming out with innovative ideas, style and designs.

WHY SUMANGAL

we use zamak #5 for all our products, which has higher copper content than zamak 3, which results in higher strength with durability.

we use virgin zinc for our products as we have in-house alloy production facility.

our entire product range has 2/3 layers of copper which enhances post plating life.

we do lacquering upto 160°C that gives our products a long lasting finish.

all our product designs are registered.

PRACTICAL DESIGNS COMBINED WITH SENSATIONS, AFFINITY AND AESTHETICS.
